

```
app::Matrix< 4, 4 >  
::convert_to_upper_triangular
```

```
graph LR; A["app::Matrix< 4, 4 >  
::convert_to_upper_triangular"] --> B["app::Matrix::clear  
_column"]
```

A diagram showing a flow from a function call to another function call. The first box, with a white background and black border, contains the code `app::Matrix< 4, 4 >::convert_to_upper_triangular`. A dark blue arrow points from the right side of this box to the left side of a second box. The second box, with a gray background and black border, contains the code `app::Matrix::clear_column`.

```
app::Matrix::clear  
_column
```
